

IRONBRIDGE WEEKEND REGATTAS

SATURDAY 24th & SUNDAY 25th JUNE 2017

Notes for Clubs and Competitors

Thank you for choosing to race at Ironbridge Regattas. Our aim is to make the event enjoyable and safe for all, and therefore we ask that you read and understand the following notes.

Competitors

These notes should be read by every crew and sculler racing at Ironbridge Regattas over the weekend. Whilst Ironbridge Rowing Club will do its best to ensure the safety of all competitors during racing, this does not absolve individuals from exercising a duty of care to third parties and to themselves. Please take the time to read the following guidance notes:

- Competitors are required to report to Registration before they race, to collect their number. If you have **any changes** to the **BROE entry submitted**, **these must be declared** before collecting your number. Remember that you cannot change more than 50% of the original crew you entered. In the case of single scullers, the sculler named on the entry form cannot be substituted. Numbers will only be issued when all fees are paid. Please ensure that plenty of time is allowed to undertake the above, especially first thing in the morning, although extra effort will be provided to make sure you can boat on time. Random checks may be made on Racing Licences at registration. **YOU MUST ALWAYS BRING YOUR RACING LICENCE OR OTHER PHOTO ID TO A REGATTA IF YOU ARE RACING**. Random checks of the crew in the boat against photo ID may also be performed throughout the day.
- Crews should report to the Boat Marshal, **30 minutes** before the start of their race. Here, their boats will be checked for compliance with the British Rowing Rules of Racing and 'Row Safe' and they will be paired with their opposition before going afloat. Crews should pair up with their opposition before they proceed to Boat Marshalling.
- Please note that due to the level of entries, **no row-overs will be allowed** to avoid unnecessary congestion on the river.
- If a boat fails a safety check, the **Control Commission Umpire** will complete a failure form. A copy of this will be given to you on request.
- Coxswains will be weighed in at the boat marshalling point **each day** and given a weight certificate that must be carried at all times. They should have with them any dead weight required (which must comply with the **BR Rules of Racing**). Random checks may be performed on crews coming into the landing stage after racing.
- All competitors are required to boat-on at the upstream steps. All crews are asked to boat-on as quickly as possible to prevent a backlog of waiting crews. Please be careful and ensure that when boating-on and pushing off you do not impede a race coming down the course.
- The **first named** crew is to row on the **Power Station** side of the river.
- **Crews are to proceed to the start on the Power Station side of the river**. Practice starts are **NOT** permitted on the course.
- At the conclusion of the race, all crews must turn at the buoy as soon as it is safe and practical to do so and then proceed to the downstream steps on the Regatta side of the river. **DO NOT ROW AROUND THE BEND**. The operator of the river trips boat has very generously agreed not to run trips up the Regatta course but will be operating up as far as the bend after the finish. As a reciprocal gesture, the Regatta committee have agreed to stop crews rowing too far below the finish. Failure of crews to comply with this instruction **will jeopardise the agreement** for future Regattas. **Please stay out of the way of the river trips boat** and allow it time to turn in the centre of the river where the channel is deeper.
- If the river level is above Summer Level, the central landing stage linking both sets of steps is underwater. Crews should be prepared to wade and should be equipped with Wellington boots.
- Please ensure all competitors are familiar with the map of the course.

Continued overleaf.....

- Crew numbers are to be worn on the backs of Scullers, Bows and Coxswains where they can be clearly seen. Please be sure to wear the correct number for the event you are racing in.
- Winning crews should report to Registration. Crews will need to present their racing licenses before they can collect their prizes.
- Safety Boat cover is only provided during the hours of racing and whilst crews are welcome to practice outside of these hours they do so at their own risk. Please stay within the confines of the Regatta course when practising out of hours and see the attached map for obstacles and shallow water.
- The Regatta Committee reserve the right to amend the course distance as required by river conditions. If river conditions are deemed too hazardous for inexperienced rowers we reserve the right to withdraw some novice and junior categories in the interests of safety on the day of the event.
- In the interest of safety, any competitor that falls into the river, under any circumstances, will not be allowed to race again until BR's capsizing procedure has been followed (showering, dry kit has been obtained) and the First Aid representative (Roach Medical) has authorised it.

GENERAL NOTICES

- The Organising Committee accepts no responsibility for competitors' or spectators' personal property. We would remind anyone camping not to leave valuable items in their tents.
- **Please note that the access road and fire lane on the camping/Regatta field is to be kept clear for emergency access at all times.**
- No camping or alcohol is permitted in Dale End Park; this is a restriction imposed by Telford & Wrekin Council. Please take care when driving through the park; access will be allowed only for trailers and towing vehicles CANNOT be left in the trailer park. All vehicles and tents are to be parked / pitched on the Regatta Field located behind the Clubhouse. For safety reasons, please ensure that a sensible distance is left between tents and please remember to park vehicles sensibly without taking up too much space; the field car park can get very crowded.
- **Please note that NO BONFIRES are allowed anywhere**, this is in the interests of safety and out of courtesy to the football club who give up the use of their pitch for the Regatta. **A schools sports day is scheduled for the DAY after the Regatta so please show consideration to other people by not lighting fires or leaving litter on the pitches.**
- Please help us to keep Dale End Park clean by using the bins provided or by taking your rubbish to the nearest skip. Black plastic bags for rubbish are available upon request; please ask at Control. If you see that bins are overflowing please inform Control.
- **Roach Medical** will be in attendance providing First Aid cover during the weekend and are located to the rear of the marquee.
- A payphone is available in the Clubhouse, which will be open between the hours of **7AM – 8PM** each day. Outside of these hours, the nearest public payphone is situated in the car park next to the Tontine Hotel which is directly in line with the Iron Bridge itself. (Turn right at the top of the track, follow the road, go straight on at the mini roundabout and then turn left after the Tontine into the car park). Mobile coverage is generally poor in Ironbridge Gorge; a better signal for mobiles can be obtained at the top of the track from the main road down to the club.
- Due to bank erosion, the clubside path from the finish up to the 250m point is very narrow, uneven and hazardous. All competitors and spectators are asked to take extra care should they chose to walk up the side of the course and are reminded that this is entirely at their own risk. The far side of the river is Power Station property and is out of bounds.

If you have any queries not covered by this document, please do not hesitate to ask at Registration or Control.

And finally; if you have any feedback or comments on the Regatta, please email the Regatta Committee on ircregatta@gmail.com
