

Ironbridge Regatta FAQs

Here is our guide to the questions that we get asked the most...

Are there places to stay in the local area?

Ironbridge Rowing Club is set in a beautiful World Heritage Site made famous for its bridge made of iron. Details of local accommodation in the area can be found at: <https://www.discovertelford.co.uk/where-to-stay/>

What parking facilities are at Ironbridge?

Parking at Ironbridge Rowing Club is limited, but there are a number of pay and display car parks in Ironbridge. Closest to the Regatta is Dale End Park, but there are also car parks on the Wharfage and just over the Ironbridge itself. The furthest is just a 10-15 minute walk and parking for the day is just £2.60.

Can I camp at the Regatta?

Yes you can... on the Friday and Saturday evening, but please be aware that it is only a field and there is no power or water supply. Portable toilets are available throughout the weekend and there are showers in Clubhouse, which is open from 7.00am to 8.00pm.

If you are planning to camp at the Regatta, please make sure you download our camping/parking map and adhere to it.

Can we bring a barbeque?

We would prefer it if you didn't bring barbeques. Our camping/parking field is on football pitches and is the local school's sports field. It is in regular use from the Monday after the Regatta.

Will there be food and drink on sale?

Team Catering will also be selling a selection of hot and cold food and drinks both days from 7:00am. There is also a bar and disco on the Saturday evening for those who still have the energy after a day of racing!

Out of racing hours, there is a local Co-op at the end of Dale End Park and here you will also find the nearest cashpoint.

Are dogs allowed at the Regatta?

Dogs are welcome at Ironbridge, please make sure your dog is on a lead at all times and that you clean up after it. Dog bins are available in Dale End Park

What's happening to the power station and cooling towers?

Well, the power station is no longer in use and work has begun to decide its future. The cooling towers are set to be taken down, but we don't know yet when that will be. Will they be here this time next year, who knows?
